T&T BISSO RESPONSE Successfully Refloats Container Vessel

BRAZIL (July 6, 2009) – T&T BISSO RESPONSE, an industry leader in vessel emergency response, salvage and marine firefighting services, successfully refloated a 5,700 teu container vessel in Brazil.

Led by Senior Salvage Master Ted Hosking, the T&T BISSO team safely lightered bunkers and used three high-horsepower local tugs in the operation. After pumping the bunkers back to the vessel and conducting an underwater survey, the crew safely delivered the vessel and cargo to its owners with no damage to the environment.

“This operation marks a major milestone for T&T BISSO as we continue to strengthen our position in the worldwide emergency response market,” said W.A. “Beau” Bisso IV, president and chief executive officer of the company.

Formed in 2005, T&T BISSO is a stand-alone response contractor servicing the maritime, shipping and offshore energy industries. T&T BISSO combines the resources and experience of T&T Marine Salvage, which was founded in 1957, and Bisso Marine Company, founded in 1890. T&T BISSO’s worldwide response network includes firefighting systems, inert gas generators, nitrogen generators, ship-to-ship pumping and lightering systems, pulling systems and diving systems.
